Who We Are

Caswell Mdidimba
Resources (Pty) Ltd

"IMPACTING THE FUTURE"

Who We Are

Vision

The vision of the company is to become a leading mining brand in South Africa. This will be done by establishing a business that will be well known by its customers and in general as a reputable, reliable, honest, friendly and professional.

With our philosophy, values and mission firmly in place, we are targeting controlled growth and sustained profitability in the future. Our responsibility to our clients, employees, and shareholders, remain the principle focus of our operations and is defined by our corporate values.

Mission

Caswell Mdidimba Resources (Pty) Ltd undertake to provide comprehensive services for the efficient development of our clients and recipients of our services by combining our skills, expertise and effective utilization of all our resources.

Values

We value the following attributes:

Integrity

we conduct our business in an open and transparent manner.

Leadership & Innovation

We are at the forefront of developing and implementing new strategies and technologies.

Service

We provide high level of customer service to both our internal and external clients.

Education

Continuously educate ourselves regarding the latest technology solutions, sustainability and environmental responsibility.

Our health and Safety

Caswell Mdidimba Resources (Pty) Ltd

"IMPACTING THE FUTURE"

HEALTH & SAFETY

Caswell Mdidimba Resources envisages injury-free production as a result of safe working environments for all employees. To this end, we ensure that our employees are up to date with the latest safety standards and procedures.

Operationally, we are committed to:

- Implementing our own internal safety system, in addition to mine-specific safety systems
- Placing our employees' health and safety above all else
- Continually training our employees to work safely and securely
- Adhering to our clients' on-mine safety requirements; and
- Abiding by the regulations of the Mine Health and safety Act.

OUR SAFETY COMPLIANCE SYSTEM

At Caswell Mdidimba Resources, our safety compliance system ensures that we contribute to a zero-harm environment. Each site manager and supervisor compiles a safety roster for the month ahead, featuring predetermined safety indicators. We also conduct monthly audits – both surface and underground – to measure compliance. The results of these are presented at our monthly meetings, where solutions and actions are devised to deal with non-compliance

Our Directors

Caswell Mdidimba
Resources (Pty) Ltd

The Director

Mr. Zenzele Hardwick Mdidimba – Director

Mr. Mdidimba is a dynamic entrepreneur.
